

Introduction	● Title: Kayye Bookstore app ● Author: Rahmatika Yuandra, UI/UX Designer, tikayuandra30@gmail.com ● Stakeholders: Campus Colleagues ● Date: September 28, 2025 ● Project background: I am currently creating a bookstore app that makes it easy for users to order books from home, and with this app users can see recommendations based on the types of books they like. ● Research goals: With delivery feature users can save their time and the recommendation feature can be adjusted to the user's interests.
Research questions	● How far is your house from the nearest bookstore and Do you prefer shopping for books offline or online? ● Do you find any confusing feature in the app? ● How long does it take for you to use our home delivery feature? ● How do you usually decide which book to buy? ● Do you find it easy to find the book you want to read?
Key Performance Indicators (KPIs)	● Time on task : How long it takes for a user to order books with delivery feature. ● Drop-off rates : How many users abandon the app flow. ● System Usability Scale: a questionnaire to evaluate customer feedback.
Methodology	● Unmoderated usability study. ● Research method : qualitative and quantitative ● Location: Indonesia, remote ● Date : October 15-17 (After hours) ● Session last for 10-15 minutes

	● Data will be collected by user interviews and surveys.
Participants	● Participants are anyone who loves to buy books online ● Participants are college students ● 1 participant is a visual impairment ● 2 participants are not fluent in English ● Incentive : 20% discount for any books in Kayye Bookstore Online.
Script	● Prompt 1 : Login/create account ○ Prompt 1 Follow-Up : How easy or difficult was it to login/create an account? Is there anything you would change about the process? ● Prompt 2 : Choose a book from recommendations on home screen or category section. ○ Prompt 2 Follow-Up : How easy or difficult was it to find a book? Is there anything you would change about the process? ● Prompt 3 : Read the book details ○ Prompt 3 Follow-Up : How easy or difficult was it to read the book details?? Is there anything you would change about the process? ● Prompt 4 : Complete your order and choose home delivery method ○ Prompt 4 Follow-Up : How easy or difficult was it to complete your order? Is there anything you would change about the process? ● Prompt 5 : How did you feel about this Bookstore app overall? What did you like and dislike about it? ● Have the participant complete the System Usability Scale. Participants are asked to score the following 10 items with one of five responses that range from Strongly Agree to Strongly disagree: 1. I think that I would use this app frequently. 2. I found the app unnecessarily complex. 3. I thought the app was easy to use. 4. I think that I would need the support of a technical person to be able to use this app. 5. I found the various functions in this app were well integrated. 6. I thought there was too much inconsistency in this app.

- 
7. I would imagine that most people would learn to use this app very quickly.
 8. I felt very confident using the app.
 9. I needed to learn a lot of things before I could get going with this app.
 10. I found the payment system frustrating.
